

ACTUATED MEDICAL[®] FACE SHIELD

Protecting all + Guarding futures

Reusable facial covering for most environments.

Face coverings, such as face shields, help minimize respiratory droplet contact between people. Compared to face masks, face shields enable people to see one another's facial expressions while minimizing accidental face touching.

With 3 available models, Actuated Medical face shields provide nose, mouth and eye coverage for a wide range of users and settings (e.g., first responders, schools, manufacturing).

Standard

Small

Hard Hat

All Actuated Medical face shield models use the same 0.02 inch thick clear polycarbonate. Additionally, all models allow room for glasses or goggles as well as additional personal protective equipment (PPE).
